

Yayneabeba Emshaw – CV

Email: yayneabeba98@gmail.com

About Me

I am a **second-year Software Engineering student** with a passion for web development and content creation. I enjoy building **responsive, clean, and user-friendly websites** using HTML, CSS, and JavaScript. I am also interested in **creative writing**, including scripts and poetry. My goal is to grow as a **professional software engineer and content creator**, combining technology with creativity.

Education

- **Addis Ababa Science & Technology University (AASTU)**
B.Sc. Software Engineering (2024 – Present, Second Year)
- **High School Diploma** – Ataye, Ethiopia.

Technical Skills

- HTML, CSS, JavaScript
- Basic C++ programming
- Responsive web design
- UI/UX design basics
- Content creation and script/poem writing

• Projects

1. **Personal Budget Tool**

A web-based tool built using HTML, CSS, and JavaScript to manage personal budgets effectively.

2. **Portfolio Website**

A personal website to showcase my skills, projects, and CV.

3. **Aroma Café**

A web project for a café landing page, built using HTML and CSS, showcasing **premium Ethiopian coffee, freshly baked pastries, and curated books**. Focused on **responsive design, modern layout, and user-friendly navigation**.

Services & Interests

- Web development (Frontend focus)
- UI/UX design
- Content writing and creative project development
- Learning new technologies and building innovative projects
